STARFIGHTER

by Sparky Starks

Until now, you may have never experienced it — the electric thrill of an involvement so intense that the passing hours collapse seemingly into moments; and what might have been perceived as mere entertainment before, has now shaped itself into the tangible magic of incredible challenge.

You may have never experienced it. But you will — and the experience has a name — STARFIGHTER, the last word in arcade simulations.

To refer to STARFIGHTER as a game is to pigeonhole it along with other simulations and programs which only hint at the capabilities the microcomputer can provide the user on an entertainment level. STARFIGHTER brings a gloss and sophistication to your micro that will not diminish with time, for the challenge is nearly endless. STARFIGHTER marries the physical playability of an arcade machine with the intellectual — for without the ability to make rapid, intelligent decisions, one may not experience the comfort of old age in the STARFIGHTER universe.

The STARFIGHTER player begins his tour of duty as a NEW PILOT. At this embryonic stage, he or she must prepare for the mission ahead — a mission which will consist of the identification and destruction of enemy craft. Perhaps in time (but only perhaps), the coveted rank of STAR LORD can be attained. But for now, one need only concern one's self with basic survival.

STARFIGHTER is a multiple skill level game with razor-sharp graphics and sounds that will return its cost a hundredfold in sheer enjoyment. The STARFIGHTER package includes two program tapes (separate Main Mission and NEW PILOT Simulator), or one self-booting disk, and an extremely detailed 32 page manual.

AN OVERVIEW

By definition, an adventure is a dangerous or risky undertaking; a novel, exciting, or otherwise remarkable event or experience. On your personal computer, Adventure is that and more.

Playing any of the Adventure series consists of three elements: you, the user; the games themselves; and the author, Scott Adams of Orlando, Florida.

In beginning any Adventure, you will find yourself in a specific location: a forest, on board a small spaceship, outside a fun house, in the briefing room of a nuclear plant, in a desert, etc. The top portion of your video display will tell you where you are and what you can see; the bottom section of the display is devoted to inputting commands to your robot computer and receiving messages that may arise as the result of your orders. You have to get used to looking at both the top and bottom portions in order to find out what's going on in the game but it doesn't take long for the reading to become a reflex. In fact, you will have to live in those imaginary worlds.

By using two-word commands you move from location to location (called "rooms" although some rooms represent outdoor sites such as a swamp), manipulate objects that you find in the different rooms (pick them up, put them

down, carry them, etc.), and perform actions as if you were really there.

The object of a game is to amass treasure for points or accomplish some other goal such as preventing the destruction of the automated nuclear plant in Mission Impossible. Successfully completing a game, however, is far easier to state than achieve. In many cases you will find a treasure but be unable to take it until you are carrying the right combination of objects you find in the various locations.

If you're tired of video games of bouncing balls or shooting at targets; if you're ready for an intellectual challenge that transports you to new worlds of experience; if you want to see what a skilled programmer can do with the micro, invest in one of Scott Adams' games. An early Adventure (Adventure Land or Pirate's Adventure) is a good place to start because the more Adams creates, the tougher his puzzles get.

THE ADVENTURES

#0 SPECIAL SAMPLER — If you've never experienced the thrill of a Scott Adams Adventure, then this is a good place to start! All of the elements of a full length Adventure are contained in this special cut-down version of our Adventure #1. Hours of enjoyment guaranteed — and at a special price too!

#1 ADVENTURELAND — Wander through an enchanted realm and try to recover the 13 lost treasures. There are wild animals and magical beings to reckon with, as well as many other perils and mysteries. Can you rescue the Blue Ox from the quicksand? You'll never know until you try ADVENTURE #1! This is the Adams Classic which started the Whole Ball of Wax! Try it, you won't be sorry. Difficulty Level: Moderate

#2 PIRATE ADVENTURE — The lost treasures of Long John Silver lie hidden somewhere — will you be able to recover them? Only by exploring this strange island will you be able to uncover the clues necessary to lead you to your elusive goal! Difficulty Level: Easy

#3 MISSION IMPOSSIBLE ADVENTURE — In this exciting Adventure, time is of the essence as you race the clock to complete your mission in time — or else the world's first automated nuclear reactor is doomed! So, tread lightly and don't forget your bomb detector! If you survive this challenging mission, consider yourself a true Adventurer! Difficulty Level: Hard

#4 VODOO CASTLE — The Count has fallen victim to a fiendish curse placed on him by his enemies. There he lies, with you his only possible hope. Will you pull off a rescue, or is he down for the Count for good? Difficulty Level: Moderate

#5 THE COUNT — It begins when you awake in a large brass bed in a castle somewhere in Transylvania. Who are you, what are you doing here and WHY did the postman deliver a bottle of blood? Who can say ... but somewhere a centuries-old evil lies in dark wait ... Difficulty Level: Moderate

#6 STRANGE ODYSSEY — At the galaxy's rim, there are rewards aplenty to be harvested from a long-dead alien civilization, including fabulous treasures and advanced technologies far beyond human ken! Will you be able to recover them and return home? Prepare yourself for the incredible! Difficulty Level: Moderate

#7 MYSTERY FUN HOUSE — This Adventure puts you into a mystery fun house and challenges you to find your way through end back out of it. Sure to baffle you for quite a while, the MYSTERY FUN HOUSE is patiently waiting for you to enter. So, step right up and get your tickets he-yah! Difficulty Level: Moderate

#8 PYRAMID OF DOOM — This is an Adventure that will transport you into a maddening dangerous land of crumbling ruins and trackless desert wastes — into the very PYRAMID OF DOOM! Jewels, gold — it's all here for the plundering — if you have the expertise to pull its recovery off! Difficulty Level: Moderate

#9 GHOST TOWN — You must explore a once thriving mining town in search of the 13 hidden treasures. With everything from rattlesnakes to runaway horses, it sure ain't going to be easy! And — they don't call them ghost towns for nothing, partner! Includes a special bonus scoring system too! Difficulty Level: Hard

#10 SAVAGE ISLAND PART 1 — A small island in a remote ocean hold an awesome secret — will you be able to discover it? This is the beginning of a two-part Adventure, the second half concluding as SAVAGE ISLAND PART 2, ADVENTURE #11. NOTE: This one's a toughie — for experienced Adventurers only! Difficulty Level: Harder

ADVENTURE #11

SAVAGE
ISLAND
PART II

The suspense begun with Adventure #10 now comes to an explosive conclusion with SAVAGE ISLAND-PART II! This Adventure requires you to have successfully finished #10 wherein you were given the password to begin this final half. The plot thickens as you wind your way through glowing corridors in search of the elusive clue that will enable you to solve the riddle of the island. NOTE: For experienced Adventurers only!

Difficulty Level: Harder

ADVENTURE #12

GOLDEN
VOYAGE

The king lies near death in the royal palace. You have only three days to bring back the elixir needed to rejuvenate him. Journey through the lands of magic fountains, sacred temples, stormy seas and gold, gold, GOLD! Can you find the elixir in time? This one is for experienced Adventurers only!

Difficulty Level: Hard

ADVENTURE HINT BOOK

For Adventures 1 Through 12

At long last, there's help for the befuddled Adventurer! Our new hint book provides additional clues to help you with some of those sticky spots you've gotten yourself into, while still letting you solve the Adventure yourself; all without giving away any clues until you really want them! So, if you can't seem to get out of the bog or locate the pharaoh's heart, you've come to the right place! Includes a special section on making Adventure maps, too! Individual hint sheets are available for all Adventures, including Other Ventures.

Z-CHESS III

TRS-80

by Bill Miller

In the beginning, there was chess — quite possibly the most popular board game the civilized world had ever known. Eventually, with the advent and popularization of the computer, chess was adopted — as well as adapted — for use on the microcomputer. And now, the game has reached its apex — as the incredible Z-CHESS III!

Z-CHESS III is one of the fastest, most versatile chess opponents available for your micro today. With its seven levels of "look ahead" and its ability to accept and play all standard chess moves (including castling and En Passant captures), it is truly a challenge for both beginning and advanced players. It can play either white or black, and its versatile board set-up mode allows specific positions to be played as desired. Naturally, Z-CHESS III will solve mate-in-two problems and it will solve them FAST! Look out Bobby Fischer!

BACKGAMMON

TRS-80

by Scott Adams

This is the original Backgammon program written by Scott Adams which has been a favorite among computerists for quite sometime. BACKGAMMON captures every nuance and characteristic of the actual board game, delivering hours and hours of exciting fun to your home microcomputer — fun that your family and friends will want to get in on too!

Adams' BACKGAMMON is played exactly like the real thing. You input your move into the computer, which will then consider your move, analyze it, and decide upon its best reply. Usually the computer will make its move in 40 seconds or less.

So, if you enjoy a good game of Backgammon (and who doesn't?), then look no further than BACKGAMMON by Adams!

THE MEAN CHECKERS MACHINE 2™

TRS-80

by Lance Micklus

Welcome to the world of checkers, a game that the entire family can play and enjoy. Your opponent is THE MEAN CHECKERS MACHINE 2™. Can you beat the computer? Sure — but only if you're careful!

At the beginning of the computer's turn, it begins searching throughout the checkerboard for every possible move. Once a legal move is found, the computer re-creates the move on an internal board, checking it against the playing board to see if the move looks promising. This "look ahead" function can continue up to 9 levels deep, depending upon the setting you choose.

Whether you're just starting out, or if you're already a checkers expert, you'll find that MEAN CHECKERS MACHINE 2™ will live up to its reputation as one of the greatest programs of its type anywhere!

BACK 40 III

TRS-80
APPLE

by Bill Miller & Steve Glen

The game that you've played and loved for years is now available for your micro! BACK 40 III is the last word in realistic Backgammon simulation — and, Backgammon buffs will appreciate this detailed machine language program which simulates the actual board game right down to the doubling cube. The computer is programmed to make some killer moves and uses excellent judgment in its use of the doubling cube. BACK 40 III also keeps a running total of games that have been won by both sides.

So, if you've been disappointed with other version of this exciting game, then now is the time to move up to a truly superior product. Fun for Backgammon fans of all ages, AND an excellent program for beginners and experienced players alike!

maces & magic

BY CHAMELEON SOFTWARE

BALROG

Meet the Chromatic Dragon face-to-flame in BALROG, the first in the MACES & MAGIC Series. This tentasy edventura faeturas ona of the largest data bases ever created for a microcomputer role playing game. Not only can you create completely individual characters, but you may also choose from a huge inventory of specific weapons and armor items. Freeform input combined with choices suggested by the program makes the discovery of the more secret areas of the dungeon a real challenge!

STONE OF SISYPHUS

The STONE OF SISYPHUS carries you to a "thinking man's" dungeon, wherein you must apply your skills to effect survival and to realize your goals. This is an unfriendly subterranean world populated by hideous monsters, and dripping with fabulous treasures — the latter enticing you to face the former! Your survival hinges upon hard intellect, as opposed to the wispy uncertainty of chance, so be prepared to draw deeply from your intellectual reservoir! And — the responsiveness of the program to the individual qualities of your character make this grand adventure frustratingly enjoyable for hundreds of hours before all of its elusive secrets can be unlocked!

MORTON'S FORK

The third entry in the Maces & Magic series, MORTON'S FORK transports you into a world bereft of nature's laws — a realm populated by magical beings and strange creatures. The scenario is set within the confines of an ancient wizard's fortress. Through your keyboard input, you equip your warrior with armor, weapons, and gold, as well as with desirable personal attributes. Only then will you be able to face the dangers of MORTON'S FORK! Features include multiple skill levels and a comprehensive manual describing the colorful Maces & Magic world.

MACES & MAGIC are fantasy adventures involving you and your computer. Armed only with your wits, a microcomputer, and the software provided, you can become the hero or the meat your destiny dictates. You create a character, equip him (or her) with suitable weapons and armor, and enter the dungeon in search of fame and fortune. Neither is particularly easy to obtain.

If you are successful in avoiding or conquering the various monsters, traps, enchantments and illusions set by our notorious dungeonmasters, you may escape with riches and glory. Your name and deeds will be recorded for posterity in the records of the dungeon. More importantly, you'll be alive. You may then use the same character in his more experienced and wealthy form when you enter dungeons on later occasions.

In each dungeon there are random events which occur, but in the vast majority of cases the skill of the player in making correct choices determine the outcome of the game. The majority of instructions are furnished within the program in the form of appropriate prompts.

There are many ways to meet an untimely demise in the dungeon. Monsters and such are just one of the lines of defense between you and the treasures stored there. Various traps await the unwary (and the wary too). Some are lethal, while others are merely unpleasant or inconvenient. It pays to be suspicious. Beware of once bearing gifts.

The object of the whole exercise is not just to fight the monsters and collect treasure. You have to get out alive to enjoy it. In every dungeon there is at least one exit. It is possible to escape from each and every dungeon with a whole skin. We state that fact here because players often believe this not to be true. We really aren't out to get you. Not really....

Once you successfully exit from the dungeon you will have an opportunity to save your character for further adventures in this and other dungeons. Your treasures will be converted to their gold equivalent and your weapons and armor stored in baguena. When you start another adventure, you may call up your experienced character for another trip. The only limitation is that once a character is killed, he may re-incarnate three times; after that, he is gone forever. No second chances, no tears, no braast beating. Gone. Keput. Finished. You will have the distinction of adding to the dungeon statistics, however. A sort of second hand immortality in recognition of a nice try. No glory or cash though.

INTERACTIVE FICTION

BY ROBERT LaFORE

Apple Conversion by Marin Computer Center

APPLE
TRS-80

WHAT IS IT?

Interactive Fiction is story-telling using a computer, so that you, the reader, can actually take part in the story instead of merely reading.

HOW DOES IT WORK?

The computer sets the scene with a fictional situation, which you can read from the CRT. Then, you become a character in the story: when it's your turn to speak you type in your response. The dialogue of the other characters and even the plot will depend on what you say.

IS IT A GAME?

No. In a game the situation is rigidly defined and you can select from only a limited number of responses. But in Interactive Fiction you can say anything you like to the other characters. (Of course if your response is too bizarre they may not understand you.)

WHAT IS AVAILABLE NOW?

Robert Lafore, writer, columnist, and programmer, has created a series of works in Interactive Fiction.

Six Micro Stories offers a good introduction to Interactive Fiction. Six very short stories involve you, the reader, in a variety of situations: you are an American spy in Hitler's Third Reich, the pilot of a doomed 747, and more.

Local Call for Death is a detective story in the style of Lord Peter Wimsey. Considerably more challenging than the above program, this one will put your analytic skills (and social savoir-faire to the test.

Two Heads of the Coin is a psychological mystery set in the London of Sherlock Holmes. Most challenging of all, this program will tax your observational skills and above all your imagination.

His Majesty's Ship "Impetuous" — You are the Captain, Horatio Hornblower, back in the days when His Majesty's Navy ruled the seven seas. Pirates, plunder, fame and fortune await the intrepid captain. If you have ever enjoyed books about the sea, now is your chance to take the helm and find out what this life was really like.

NEW • NEW • NEW • NEW • NEW • NEW • NEW • NEW • NEW • NEW • NEW • NEW

Dragons of Hong Kong — A mystery adventure into the secret societies of the Orient. Your friend is killed because he has discovered the cherished secret. Now only you know, but can your instincts lead you into the inner circles of the enemy's hideout?

SIX MICRO STORIES

An excellent introduction to the world of Interactive Fiction. Six short, but complete, stories involve you, the reader, in a variety of fascinating scenarios: You are an American spy in Hitler's Third Reich; the pilot of a doomed 747, and more. Includes: The Fettel Admission, Empty World, and four other stories.

DRAGONS OF HONG KONG

It begins in a sleazy bar when your sole contact, Professor Goodman, is murdered by a jade dagger hurled by an unknown assailant. Now, acting on the limited information provided before the Professor died, you must now face the terrors of the dreaded Gregarine Order, and the merciless Akbar D'Evile!

If you are perceptive and shrewd, and steadfast in the face of danger, then maybe you have a chance to free the world of an age-old blight, clear your name of a despicable crime, and finish the story in the arms of the woman of your dreams.

But, then again, there are other endings...

OTHER-VENTURE

Since their inception, Scott Adams' Adventures have been a mainstay in the libraries of computer owners. Now, the company that brought you these great programs brings you the fantasy/adventure games of other authors in this NEW series. Each program reflects many months and sometimes years of development by their respective authors.

Our standard Adventure series reflects Adventures written and executed using Scott's special machine-language interpreter. Our Other-Venture Series will contain adventures written using different methods, though still meeting the high standards set by Scott's original series!

We hope you have as much fun with this new series as with Scott's (Be sure to look for new packages in both series in the future!).

TECHNOLOGICAL BREAKTHROUGH!!!

Since Will Crowther and Don Woods created it years ago, ADVENTURE has been programmed to run on nearly every computer known to man. The original Fortran version ran on a large PDP machine requiring nearly 300K of storage. At least three other versions of ADVENTURE exist for the APPLE. Some claim to be the only complete version; some claim to fill whole disks with program and data. To date, however, all require diskette access during the game to retrieve text for display on nearly every command. All added "features" of their own, changed some of the original text, or omitted something from the original.

In this version of ADVENTURE you get nothing but the real thing. All of the grandeur and mystery of the original Colossal Caves is re-created here — nothing has been added or left out! By using a text compression technique seldom used on microcomputers, the nearly 44K bytes of text fit in less than 25K. This means no disk access is needed during the game and that it can be played on 48K systems without disk drives. Both tape and Disk versions are identical, only the media is different. The tape version includes instructions for making a disk copy. All Apple versions work with either 3.2 or 3.3 APPLE disks and APPLE 2 or APPLE 2 Plus machines.

E-Z SOUNDS

TRS-80

by James Telley

E-Z SOUNDS is a tape or disk system for generating music and sound effects in basic programs. E-Z SOUNDS is a machine language sound routine that was developed for the purpose of enhancing the operations of your own basic programs, as well as contributing to their salability. It isn't complicated to understand or use, and is easily patched into your program and executed upon command. No prior assembly language or musical experience is necessary, however, a short tutorial on musical terminology is included to help you encode your favorite musical renditions and a library of sound and music is included for your evaluation and use.

Your usage of E-Z SOUNDS in your own programs is encouraged (with no legal or contractual obligations), provided you grant a credit line to E-Z SOUNDS.

COLOR COMPUTER GAMES #1

TRS-80

by Lance Micklus

Now, Lance Micklus, author of many great programs including STAR TREK™ and THE MEAN CHECKERS MACHINE 2™, turns his formidable expertise to the color computer. The results? Not one, but FOUR joystick-based games for your color micro! Includes the following:

COMPUTER MOUSE™

Computerized cats are running amuck and it's up to you to help your electronic mice survive!

PILLBOX

This two-player game puts you right into a World War II bunker, as you lob bombs at your opponent trying to score a hit! Sure fire fun!

—plus two other great games that are sure to chase your doldrums away!

COLOR TAPE 4K BASIC

060-0197 \$19.95

HI LITES!

- AN ACCURATE SIMULATION OF THE STUDY OF BLACKJACK
- EXCELLENT STRATEGY FEATURES
- PLAYS 2000 GAMES / HOUR
- REGISTERS KEEP TRACK OF ALL PERTINANT RESULTS
- PRINTOUT CAPABILITY
- AN EXCITING GAMBLING AID
- IT CAN POTENTIALLY RETURN THE PURCHASE PRICE MANY TIMES OVER

THE AMAZING BLACKJACK MACHINE

TRS-80

by Richard A. Remm

This is not a game!

THE AMAZING BLACKJACK MACHINE is an extraordinary program designed for the development, study and analysis of blackjack playing strategies and betting systems. It features a high speed test run that plays at the rate of almost 2000 games per hour with the computer playing both sides under an almost endless variety of conditions that can be set by the user! Constantly changing registers keep track of games played, player wins, dealer wins, point counts, units bet, units returned and the all important house percentages. At any time you may interrupt the test run and get a printout of additional data. While many hobbyists will find THE AMAZING BLACKJACK MACHINE more challenging than any computer game, the simple fact is that this is one of the few programs that can potentially return the purchase price many times over!

TRS-80 16K TAPE Model 1 & 3

010-0091 \$19.95

Features Include:

- Categorization method for basic and machine files.
- Automatic read of your disk directories and available free space.
- Automatic disk read and update function.
- Automatic alphabetical sort of index, - update included.
- List by category, extensions or particular disk directory.
- Search and list function, - output to video or printer (80 col.)
- List all available free space, - print-out optional.
- Change program titles in index.
- Delete program titles in index, on disk, or both.

DIM II

TRS-80

by Al Taylor

This is a complete index and user program command control system, capable of handling 140 disks and 2100 separate files! Features include categorization for basic and machine files, auto disk read and update function, automatic alphabetical sort of index, search and list function, output to video printer, and much more! DIM II was created to achieve the ultimate in disk index control. Allows the minimum one drive user complete versatility, with advantages in speed for the two-drive user. Unlike most disk managers, DIM II does not require you to remember when you've added new programs to your disks. Simply run your disks through once a week or so and DIM II will update your index automatically. A "must have" for anyone who has to keep track of a lot of files!

TRS-80 32K DISK Model 1 Only

012-0111 \$24.95

PERSONAL CHECK MANAGER

TRS-80

by Jack McCebe

This disk-based system consists of several chain-based basic programs which combine to make up a very powerful package. PERSONAL CHECK MANAGER will support up to 900 checks per year, recorded in up to 24 different accounts. PCM also keeps track of payroll information for tax time. All in all, a very good system for the price. A must for anyone who needs to streamline his or her personal check accounting system.

TRS-80 32K DISK Model 1 & 3

012-0126 \$24.95

STAR TREK® 3.5

TRS-80

ATARI

by Lance Micklus

Gene Roddenberry's beloved TV series thrilled and inspired millions the world over. Now, completely faithful to the original concept, comes **STAR TREK (r) 3.5**, a program that captures all of the essence and excitement of the original. As commander of the Enterprise, you must explore Omega VI, an unknown area that is divided into 192 separate quadrants. Omega VI is known to contain several class M (earth-type) planets, several large stars, black holes, a pulsar and star bases. The Klingons are rumored to have invaded the area other than that, information is at a minimum. Your mission, in addition to the exploration of Omega VI, will be to locate the class M planets, orbit them and collect data, stop the Klingon invasion, and return to Star Fleet Command by Stardate 2500.

STAR TREK (r) 3.5 boasts some impressive graphics, realistic sound routines, a 3-dimensional galaxy, animated visual displays, and a lot of detail that will really add to your enjoyment of the game. This upgraded 3.5 version has 10% faster execution over the original (up to 30% faster on the long and short range sensor scans), and improved Klingon battle logic. Also included is an extensive manual to enhance your "Trek" knowledge.

TREASURE QUEST

TRS-80

by Luke Buxton

If you've ever wanted to captain the trackless seas of the world in search of riches without measure, with a band of treacherous dogs who happen to double as your crew, then this game should act as a most effective substitute.

As captain of the 18th century sailing ship *Zombie*, you have come half a world in your quest for treasure. Your journey has brought you to the notorious Blood Straits, and perhaps to a rapid death as well! In your favor are accurate chartings of the area, a dependable navigator, and a seasoned crew. In a negative vein, however, the Blood Straits is an area frequented by both violent storms, and an unsympathetic British Navy, which may mistake you and your men for pirates. A fickle crew and a rapidly approaching hurricane season round out your problem roster!

TREASURE QUEST consists of your inputting a series of commands to your microcomputer as you go about searching for buried or sunken booty. A detailed instruction booklet is included to clarify and expound upon the various situations that you will encounter, along with advice and hints to aid you in your search. Each game begins differently, so you are assured of many hours of seafaring fun!

STAR SCOUT

TRS-80
APPLE
ATARI

by Phillip Cese

You were on routine assignment when it happened. While you were out charting asteroids, your entire defense fleet was being devastated by a massive Zargonian invasion. It happened so quickly that no distress calls were dispatched, as you learned upon your return to your decimated fleet. As the sole survivor, you now begin to formulate a plan for exacting revenge upon the perpetrators of the senseless slaughter of your people. Hidden deep within the forbidden sectors of the enemy-held galaxy are the parts of an awesome doomsday machine. Your small scout ship must retrieve the sections and assemble them into the powerful device that will annihilate the Zargonian base planet. Time is running out, and the lives of trillions of inhabitants of the Inner Orbits are in your charge. Can you meet the challenge?

This real-time hybrid language program is chock-full of great features, including machine language graphics and sound, a 3-dimensional galaxy, true perspective (your view is from your ship, not a "third-person" view), and will accept an optional joystick. The disk version has even more features due to an extra 6K of memory, including extra ships, expanded galaxy, enemy space stations, docking options, and much more!

PLANETOIDS

TRS-80
APPLE

by Marc Goodman

TRS-80 version by Greg Hassett

TRS-80 version currently being co-marketed by Adventure World under the name "FASTEROIDS."

Occasionally a game comes along which generates favorable public response to such an intense degree that it will actually develop cult status. PLANETOIDS is such a game!

It's your ship vs. a swarm of killer planetoids and alien ships, as you try to destroy them before they blow you into the next galaxy! PLANETOIDS gives you super-sharp graphics and sound effects (in the APPLE version), making this a sure bet for hours of unlimited fun!

The TRS-80 version is a dynamic heavyweight in its own right, including many extra features and playing modes. The "practice" mode will let you try out the game at some of the more difficult levels offered by being in a high score position. "Freeze" allows you to stop your game down at any point for later play, and "high speed" will increase the velocity of the passing planetoids. Add to all of this, abort, "cruze," dogfight and score save (on cassette version only) options, and we think you'll agree that PLANETOIDS is arcade style entertainment at its finest!

LUNAR LANDER

TRS-80

ATARI

by Mike Wall & Jack Moncrief

ATARI version by Jeff Jessee

Joystick Compatible!

In the TRS-80 version of the popular game, your micro will be taxed to its graphic limits! Written in fast machine language, the landscape scrolls horizontally by as you guide your LEM (Lunar Excursion Module) across the lunar surface. As you near your selected landing site, the automatic camera left behind by the previous mission "zooms in" for a tight close-up of your final descent! Each crash will cost you 1000 fuel units, but for the skilled player, relief can be found at the ravine's bottom with a refill at the fuel depot!

The ATARI joystick version features color graphics, and snappy 4 voice sound effects. Your mission is to make 5 successful landings with your LEM — if you've got what it takes to be a lunar pilot, you'll plant the U.S. flag to the rousing tune of "The Star Spangled Banner!" The ATARI version also includes multiple skill levels for the novice to the pro!

TRS-80

by Russell Starkey

Now — all of the excitement and action of an authentic Old West gunfight can be yours with Russell Starkey's **SHOWDOWN**! Designed with arcade-tough playability, **SHOWDOWN** delivers the goods fast and furiously!

In **SHOWDOWN**, 2 Gunslingers are pitted against one another in a dusty duel to the death. (You can play the computer or challenge a human partner). Once you square off against your opponent, you maneuver your cowpoke into position for the kill, using various keys on your micro's keyboard which will raise or lower his firing arm. And — the moving obstacles between you and your nemesis will really keep you on your toes! Have fun — but have a care as well — life comes cheaply in the badlands!

SPACE INTRUDERS

TRS-80
COLOR &
MODEL 1 & 3

by Doug Kennedy

*color version by Charles Forsythe

This is a state-of-the-art presentation of one of the most popular concepts in computer history! **SPACE INTRUDERS** singlehandedly redefines the meaning of "game" as you plunge into an experience beyond anything you've ever seen before!

The scenario: As battalions of evil Invaders descend from the heavens, you jump into your laser turret and begin defending the earth from their unending attack! There's no way to survive — the more Intruders you destroy, the more will arrive to crush their earth-bound opposition! The challenge is in the trying — end with **SPACE INTRUDERS**' many features and extras, such as the SOS of escaping Invaders to the splitting Intruders — the challenge is FUN! Throw away all previous versions. The ultimate is now available!

DEFLECTION

ATARI

by Jeff Jessee

A simple, yet captivating game that will keep the entire family glued to the screen of your micro for hours! As a moving sphere travels across the playing area, you must deflect it towards various targets, which in turn, accumulates points for the player. Total score is based upon the number of targets that you hit, as well as the elapsed time. **DEFLECTION** has several skill levels which will keep the excitement high after many rounds of play! This one will surely hone that eye-to-hand coordination! Also included for your enjoyment — **SIMON SAYS** — a fun-filled memory game for gamers of all ages!

ANGLE WORMS

ATARI

by Sten Ockers

You want fun? You got it! **ANGLE WORMS** is a challenging arcade-type simulation where 1 to 2 players maneuver their growling "worms" and try to prevent them from hitting obstacles! Each worm can fire a projectile from its head, which in turn will shorten its length — a desirable condition, since the larger your worm is — the harder it becomes to control!

As a bonus — Included with **ANGLE WORMS** is **CROLON DIVERSION**, the space target game. Get ready to battle the deadly Cronlon forces — with glory and honor bestowed upon you should you defeat them — and a quick, fiery death should you fail! Great fun for everyone!

MISSILE ATTACK

TRS-80

by The Cornsoft Group

This real-time action game pits your twin silos of ABM's against a barrage of enemy missiles that are raining down upon your cities. MISSILE ATTACK will sharpen those reflexes to a cutting edge as you sight in on the descending ICBM'S and attempt to score hits before they decimate your cities. As your skill increases, so does the difficulty of this arcade-style game. Sharp, detailed graphics and realistic sound effects make MISSILE ATTACK a must! Also includes splitting ICBM'S & bonus cities! One of our consistently biggest sellers — the entire neighborhood will be over to play this one!

MISSION: INVASION FORCE

APPLE

by Computings

MISSION: INVASION FORCE! Arcade-style fun will be coming your way when you take on hordes of alien attack raiders in this fast and furious game that requires quick reflexes and split-second timing!

As you grab the control lever, an alien mother ship appears on your screen, dropping attack raiders into the launching chutes for dispersal to the earth below. Once the chutes are filled, raiders begin descending from the heavens, intent upon your rapid destruction! Can you destroy them before they get you?

MISSION: INVASION FORCE is written in super-fast machine language, and boasts some sharp graphics and sound routines. This is an action-packed program that will provide you with a lot of fun and hours of space-blasting entertainment!

MOUNTAIN SHOOT

ATARI

by Jeff Jessee

MOUNTAIN SHOOT is a nitty arcade-type program that will bring a lot of fun to your micro! Somewhere, on the other side of the mountain (which changes every game!), the enemy lies in wait. The idea is to pick a powder amount and firing angle for your cannon and taking "pot-shots" at him from your position behind the mountain! Vivid colors and realistic sound effects make this program a must for your software entertainment library! And, MOUNTAIN SHOOT will accommodate 2 players so you can have hours of fun with a friend! If you like a challenge, then you'll love Jeff Jessee's MOUNTAIN SHOOT!

SILVER FLASH - PINBALL 1

TRS-80

by Southern Cross Systems

If you fancy yourself a pinball wizard, here's your chance to prove it! We knew that computer buffs had been searching for a quality simulation that would enable them to experience the thrill of pinball at home. Well, we came through for you with our answer to the ever-popular arcade machine ... SILVER FLASH!

This super-realistic simulation features four flippers, shake control, and even a tilt mechanism! The graphics are outstanding, simulating an actual pinball machine right down to the fluid ball motion! Bumpers, blockades and great sounds complete the package, bringing uncanny realism to this great program. A true crowd pleaser!

CONQUEST OF CHESTERWOODE

TRS-80

by Lun-Shin Yuen and Allan Armstrong

Several hundred moons ago, your ancestors migrated north through the dark Forest of Chesterwoode. During their trek, they met up with the dreaded basilisks, scores of worgs, a terrible worm, and many other dangerous creatures. The legends of the past have been lost, but tales were handed down through word of mouth for generations. In Chesterwoode, the voyagers began to think they would never leave that dark realm, and indeed, Chesterwoode is said by some to be eternal. Eventually, settling upon an area, the leaders of the wandering group surveyed a piece of land and divided it into 63 provinces. But as time passed, war swept through the provinces, and the remaining tyrants who had risen to power over the years, died out and were soon forgotten.

Each of the players in CONQUEST OF CHESTERWOODE is a descendant of one of the ancient tyrants. Your goal is to unite the provinces and modernize farming.

This is a war game similar to the strategy board variety, right down to the "hex" layout on your screen. CONQUEST OF CHESTERWOODE is a hybrid language, graphics-oriented game for 2 to 4 players. Truly a superior program, you will find CONQUEST OF CHESTERWOODE a unique and addictive playing experience.

COMMBAT

TRS-80

by Bob Schilling

Requires 2 Complete Computers

COMMBAT is a strategic and tactical battle game that will allow you (interacting through your computer) to pit your skill and dexterity against another player and their computer in a real-time battle to the death!

You and your opponent are located in a 4096 square kilometer combat reservation with exactly the same resources available to each, the outcome to be governed only by the skills of the players. As soon as you have established serial communication with your enemy (110 to 9600 baud modem or direct connection), the battle is begun! You decide which weapons to carry, load them onto, and maneuver up to eight remote controlled tanks with the primary goal of finding and destroying your enemy's base before he can do the same to you. Each enemy tank that you can defeat in combat lessens his chances of finding you.

Offensive and defensive weapons available to you include: Rockets, Lasers, Shells, Mines, Decoys, Drone Reconnaissance Aircraft and one nuclear ICBM. All but the last two items may be loaded onto, carried by and fired or dropped by your tanks, up to their maximum load carrying capacity.

Your computer displays current resource status, a map of the combat reservation updated by tank, base and decoy sensors and handles all communication chores, freeing you to make the strategic decisions and prosecute the tactical battle situations that arise.

COMMBAT requires as a minimum 2 computer systems with RS-232 port and a 300 baud full duplex modem, or if the combatants are to be located within 300 feet of each other, a modem eliminator cable in lieu of the modems.

POKER TOURNAMENT

TRS-80
APPLE

by John Warshawer

POKER TOURNAMENT allows the participant to play a game of five card draw poker against five computer controlled opponents. The computer will first prompt its human challenger to input information for the game, such as "name," and whether or not to deal the first hand. From there on out, it's going to be hot action with a quintet of cyborgs that sport the ultimate in "poker-faces!"

POKER TOURNAMENT gives you many bonus features including an attractive combination of graphics and alphanumerics with no scrolling, bluff end anti-bluff functions, and so much more! See, raise, fold, it's all up to you with POKER TOURNAMENT!

SUNDAY GOLF

ATARI

by Jerry White

It's true — you can enjoy all of the fun and excitement that goes into a great round of golf, right at home — with Jerry White's SUNDAY GOLF! Select the type of course you wish to play on, the number of players (up to 4), and even the type of club that you'll need to sink that elusive hole-in-one.

SUNDAY GOLF realistically simulates all of the energetic strategy which makes golf the exciting sport that it is today. Nice graphics and sound may make you think twice before shelling out another green fee! Includes a graphic scoreboard that keeps a running tally of the hole number, par, and player's name. This is one course that is open for fun 24 hours a day!

PROJECT OMEGA

TRS-80
APPLE

by Bob Nicholas

The industrial revolution brought benefits to mankind in the form of improved living conditions, transportation and communication. However, along with the good came the bad. Man was destroying Eden and creating Armageddon! By the early 1970's, it became apparent to many that the heavy industry of earth would have to be moved into colonies in outer space. The moon would have to be mined for select minerals and elements, with only a minimum of resources being available from the earth.

The year is now 1990 and you are governor of one of earth's first orbiting space colonies. Upon your shoulders rests the heavy mantle of decision concerning the state of affairs under your governorship. You must decide migration quotas, environmental factors, distribution of the work force, as well as many other important factors which will enable you to mold your colony into a viable production operation.

Author Bob Nicholas has designed a detailed simulation which will permit you to experience the full weight of awesome command decisions of a painstakingly detailed space colony. Many hours of intriguing entertainment await you with PROJECT OMEGA!

SIMUTEK I

TRS-80

by Michael A. Gariepy

Not to be believed until you actually see it — SIMUTEK is a multi-program package containing not one, but FIVE separate games! You'll think that you've brought the whole arcade home with this one! Include the following:

★ GRAPHIC TREK 2000 - This full graphics, real-time game puts you at the helm of the Enterprise, which must be docked at a giant space station while avoiding enemy torpedoes!

★ INVASION WORG - You must stop the Worg invasion and destroy their outposts on several planets. This multi-level game lets you advance to a more complex game as you improve!

★ STAR WARS - Maneuver your space fighter deep into the nucleus of the Death Star! Drop your bomb, then escape via the only exit!

★ SPACE TARGET - Shoot at enemy ships with your missiles. If the pilots eject with parachutes, capture them — or, if you're cruel, destroy them! Full graphics!

★ SAUCERS - Will you be the commander to win the distinguished cross? Requires split-second timing to win! Fast action graphics!

SLAG

TRS-80

by Stewart Eastman

You control the military industrial complex of an entire nation. The prospect of total global war looms certain, and you must now prepare your country for war. Strategy and tactical planning will be as important as your actual weaponry. You MUST be prepared for your world hangs in the balance!

SLAG is a multiplayer wargame which pits from 2 to 12 players against one another in a simulation of all out war. During their turns, players construct bombers, submarines, spy networks, ICBM's, and industries in an effort to attack a secure national defense. And besides the standard phases, there are also special submarine units which can attack without warning! Once the decisions are made regarding the various phases of pre-war activity, the battle begins and the participants "nuka it out" with their respective weapons until the final bomb drops!

Although primarily a strategy-oriented program, SLAG also has some great real-time graphics sequences during the actual battles which makes SLAG one of the best wargame programs on the market! Why don't you SLAG 'em today!

AUTHORS:

WE WANT TO PUBLISH YOUR SOFTWARE!

Imagine how your program would look in this package!

Join the ranks of the leading authors in the industry by becoming an Adventure International author. We are looking for outstanding games (original arcade, "Adventure"-style, simulation, role-playing), utility packages, business software - anything with a mass market appeal - for all of the major computers. Only the best will do! We offer excellent royalties, thorough advertising, great dealer exposure, professional packaging and author support. WE CARE! That's why we're one of the leaders in the industry.

Do you think you have what it takes to join us? Write for our author pack. Inside, you'll find all the information you need on the type of programs we're looking for, how to submit them, and standard and conversion contracts/applications. If you have what it takes, Adventure International can make you the money that others can only promise.

Let "success talk". Our royalty checks speak for themselves!

GALACTIC EMPIRE

by Daug Carlstan

Atari Conversion by David Simmons

As commander of Galactica's Imperial Forces, your mission is to conquer and hold the 20 inhabited worlds of the central galactic system. This system is some sixty light years wide, so logistics and planning are essential if you are to keep your fleet replenished as it moves throughout the galaxy. You have an excellent crew, and a state-of-the-art computer ... and you'll need them! Author/creator Doug Carlstan launches the first entry in his expansive Galactic Saga series.

GALACTIC TRADER

by Daug Carlstan

Atari Conversion by David Simmons

The Galactic Saga continues — and now you must move from the rank of commander to that of trader — an entrepreneur who seeks power through the avenue of personal wealth.

The principles of trade are not difficult. The farther a product is from its planet of origin, the greater its value. Now, as you move from world to world, perhaps you will attain what you seek. Good luck Bwana. May you find your new profession an enriching and eye-opening experience.

A FEW CUSTOMER COMMENTS FROM OUR FILES

"I have reviewed *Profile*, *IDM4* & *5*, and *Microconductor*. **MAXI MANAGER** is the one that fits my needs."

Walt Lomborg, Management Resources Associates

"Let me say that I am awed by the capabilities of **MAXI MANAGER**. It's brilliant."

Bruce Galphin, Bruce Galphin's Wine Newsletter

"... I find (**MAXI MANAGER**) to be an excellent piece of software ..."

Robert D. Paul, Licensed Psychologist

"... (**MAXI MANAGER**) has run flawlessly ... and it seems it will run forever."

Steve Sherwick

"The version we purchased is excellent and I am looking forward to applying it to the many record keeping areas involved in the administration of our church and school. It's an absolutely terrific database manager."

Edwin Flack, Facilities Manager

- JUST CHECK SOME OF THESE FEATURES**
- Supports six different relational search techniques.
 - Comes with programmer's interface.
 - Over 180 pages of documentation.
